It is more than the 4 walls, the space has created so much warmth, positive vibes. The quality, smooth process, and even the people made everything effortless. I never imagined owning a home like this in Jamshedpur. Thank you, Aakash India, for making my dream a reality."

IS

AT YOUR CORE?

A DAY TO SAVE LIVES

Aakash India once again demonstrated its commitment to community welfare by organising its quarterly blood donation camp on **April 12, 2025**, at its **Payal Cinema Office**. The event saw overwhelming participation, generous donors coming forward to donate blood. As part of its ongoing efforts, Aakash India holds these camps every three months, encouraging employees and local community members to contribute. This initiative highlights the company's belief that corporate responsibility extends beyond business and aims to make a lasting impact on people's lives, fostering a healthier and stronger community.

CARE BEYOND WORKING HOURS

Aakash India is a community, as this story will demonstrate.

Mantu Oraon, a laborer, has been donating blood every three months for years. When his wife needed urgent blood during childbirth, the company's Welfare and HR team arranged help immediately. Because of this support, both mother and child were saved.

Aakash India continues to hold blood donation camps and run welfare programs so every worker feels safe and cared for, anytime they need it.

Across the world, **WOMEN** defy limits, challenge expectations, and break barriers with unparalleled courage and resilience.

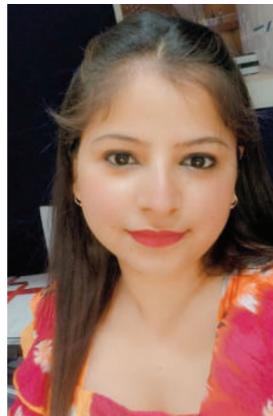

At **AAKASH INDIA**, we are privileged to have incredible women who lead with strength, vision, and determination.
